

Department: Performing Arts
Course Name: Second Grade Music

Course Description:

Students will explore music through expression, rhythm, form, melody, timbre, and texture/harmony. The students will develop a music appreciation for beat, dynamics, tempo changes, different meters, melody using solfege, and pentatonic scales. They will also get an opportunity to use creativity to compose their own rhythms and eventually compositions. The students will listen to a wide variety of music from around the world creating global awareness and music appreciation through history. Also, the students will have an opportunity to play the rhythm instruments. Students will participate in a stage performance which will showcase musical knowledge and build confidence speaking in public.

Content:

Expression
Dynamics
