

Department: Elective

Course Name: InF.O.C.U.S.

Course Description:

This class is part of the 5th grade exploratory rotation. Learning how to learn is a valuable exercise and has a lifelong impact on success. In this course students will benefit from opportunities to become better learners. The kind of exploration offered through InF.O.C.U.S. allows students to discover who they are and how they move through the world. The class will explore **F**riendship, **O**rganization systems, **C**onflict resolution, **U**nderstanding and **S**elf-advocacy. Through experiential activities, students are encouraged to challenge assumptions they have about the world and each other, accepting each other at face value and respecting those qualities not so obvious. The middle school counselor facilitates the class.
